Project Statistics

Scope: Interior Studio Lighting
Architect: Ankrom Moisan Associated Architects
PLA Project Lead: Paul Luntsford, LC
Opened: 1990

For this Siamese production studio, we designed the studio lighting grid, black-out perimeter, 270 degree cyclorama and chroma-key draperies, tracks, and switchers. There were 288 dimmer circuits, including provisions for full 4-color top and bottom cyclorama wash. Design included provision of memory/manual lighting control console and controller network. Specification of studio lighting accessories and equipment was also provided.

PLA Designs served as lighting designers for two shows produced in this facility.
